Annex

95th Session of the UNWTO Executive Council (27-29 May 2013)

Statement by the German Delegation on Agenda Item 3, Part II (a) Add. 1: Amendments to the Detailed Financial Rules (DFR)

Madame Chair,

We have examined the document on the Amendments to the Detailed Financial Rules. Under German law, we must also consult the Federal Ministry of Finance and the Federal Court of Auditors on documents regarding the financial rules of international organisations. Following careful consultations of the German authorities, I would like to present the following comments by the German delegation:

- **Ad Rule 3.07**: It has so far been necessary that the Committee on Budget and Finance confirms transfers of credits between various parts of the UNWTO budget. According to the new wording of Rule 3.07, however, the Committee on Budget and Finance shall be informed only after transfers of credits. From the German point of view, this weakens the rights of the member countries since it is not in line with the IPSAS requirements. We request that the existing Rule should be retained and that the Committee on Budget and Finance should be involved prior to any transfers of credits.
• **Ad Rule 5.14**: According to the new wording of Rule 5.14, the use of voluntary contributions for specific purposes within the framework of the Voluntary Contribution Fund shall in future be possible. However, the overarching Financial Rules (Rule 10 No. 4) do not allow for provisions on the use of voluntary contributions specifying a particular activity. We therefore request the **complete deletion** of Rule 5.14.

• **Ad Rule 6.21**: A replacement reserve has so far been possible only for the acquisition of new computer hardware, photocopiers and vehicles. The new wording of Rule 6.21 refers to "non-expendable fixed assets" in general; according to the Rule, these include any goods that are worth less than 250 US dollars and at least one year old. Will the scope of goods for which a reserve is necessary be expanded due to the new definition? If yes, Germany cannot accept this provision unless the contributions of the member countries will not rise due to an increased reserve.

• **According to Rule 6.24**, a new reserve fund, the Special Contingency Reserve, shall be established. The new contingency fund is planned to be financed through budget surpluses. **Germany rejects the new Contingency Reserve.** Surpluses should be used to reduce the contributions of the member countries, as in the past. In addition, according to the new wording of the Rule, the Reserve is planned to be used not only for contingencies, but also as seed money to finance voluntary projects. We believe that this is dangerous since if the expected voluntary contributions will not be paid, the funds of the Reserve would soon be exhausted.

• **Rule 8.01** makes clear that the activities of the external financial control cover all funds and accounts of the UNWTO. This important aspect should be laid down in the overarching Regulations.

The German delegation requests that its statement should be taken into account in the draft decision on the above-mentioned agenda item.
