

UNWTO Statistics Capacity Building Program

WORKSHOP IV

18-20 November 2009

Vienna, Austria

Reporting on main challenges remaining for
continuing progress in measuring
OUTBOUND TOURISM

Dijana Milić, Ministry of Tourism

Petar Dragišić, MONSTAT

Mirjana Đuranović, Central Bank of
Montenegro

Main sources that we are collecting data from, related to outbound tourism:

- **FLOWS**
- **CHARACTERIZATION OF TRIPS**
- **TOURISM EXPENDITURE** - Household
budget survey

Survey on household consumption

- Quarterly
- Questions regarding:
 - Expenditure on last 3 months:

Transport services

Package arrangements (transport, accommodation, food, including excursions)

Hotels, coffee bars and restaurants

Restaurants

Accommodation services (pupils' and students' dormitories, hotels, motels, resorts)

Survey on household consumption

- Future plans:
 - to include question regarding tourism consumption
 - Same day traveling and longer traveling in the country and outside the country broken down by:

Food consumption

Accommodation

Transport

other

Future plans:

- Need for following outbound tourism is recognized
- Data on tourists from Montenegro could be collected from, as a first step, inbound tourism statistics of countries from the region
- Plans to connect and cooperate more closely with travel agencies and tour operators
- make closer contact through Montenegrin Tourism Organization (CTU) in order to find out more about tourists going abroad
