

Accommodation Statistics

Republic of Turkey
Ministry of Culture and Tourism

Research and Evaluation Department

Classifications used in Accommodation Statistics

- Classification are defined by the Ministry of Culture and Tourism through regulations
- Other establishments are categorized by the Municipalities
- Ministry and Municipality Licences are planned to be merged

Maintaining the registry - I

- Ministry Inspectors (Controllers) and Municipality employees regularly check the establishments to ensure that they are up to the standards
- Establishments report to the administration if they upgrade their facilities or change their licence

Maintaining the registry - II

- TURKSTAT also have a registry of establishments
- Industry Statistics have categories for different sectors by NACE classification
- The population can also be checked from this source

Collection of data - I

- Ministry of Culture and Tourism runs a census for the Ministry Licenced Establishments
- Establishments licenced from the Ministry are willing to cooperate

Collection of data - II

- Municipality licenced establishments are not as enthusiastic
- Response rate is low for establishments licenced by regional administrations
- Missing values are estimated with the given data

Statistics on Occupancy & Economic Variables

- Gathered by the Accomodation Statistics questionnaire sent to the establishments by the Ministry
- Economic variables are not included to the accommodation statistics (labour or industry statistics might have related data)
