

# Preparation of the General Assembly

## 109th session of the Executive Council

# Preparation of the General Assembly

With the aim of making the proceedings of the General Assembly **more agile and interactive**, it is suggested:

- To hold one **Regional Commission** meeting per region in the year of the Assembly (spring 2019). The decisions will be reported to the 110th Executive Council in June 2019.
- No **Executive Council** on the eve of the GA. The 110th Executive Council will examine all issues which were traditionally addressed on the eve of the 1st plenary session.
- The **Programme and Budget Committee** will hold its meeting prior to the 110th Executive Council and right after the 111th Executive Council after the GA.
- To hold one **Executive Council** in the framework of the Assembly, right after the GA proceedings.
