За период, охваченный данным докладом, были выпущены четыре публикации.

22. В рамках того же процесса был подготовлен доклад «*Тенденции в туризме Европейского союза*», в котором туризм в Европейском союзе рассматривается в контексте глобальных тенденций в туризме: Европа продолжает быть наиболее посещаемым регионом, на который приходится половина международных туристских прибытий всего мира. В докладе также предоставляется полезный и всеобъемлющий обзор туризма в ЕС и расширяется база знаний виртуальной туристской обсерватории ЕС, что помогает формировать политику, основанную на доказательных данных, в целях развития будущих инициатив в туризме ЕС.

23. В публикации [«Проникновение на китайский рынок выездного туризма: успешная практика и решения»](#) дается обзор ключевых характеристик китайского рынка выездного туризма в области политики, демографии, социально-экономического развития, зон влияния и тенденций рынка. В нее входят примеры семи турнаправлений Азиатско-Тихоокеанского региона и трех – Европы и Американского континента, которые успешно развили китайский рынок туризма. В докладе также сделан особый акцент на молодом поколении туристов, значительно выделяющемся на китайском рынке выездного туризма.

24. В [издании ЮНВТО / Исследовательского центра экономики глобального туризма \(GTERC\) о тенденциях туризма в Азии за 2017 год](#), четвертом ежегодном докладе этой серии, делается акцент на быстром росте туристского сектора в странах Азии и Тихого океана. На этот рост повлияли технологические разработки и цифровая революция. Региональное сотрудничество с его многочисленными трудностями и возможностями также отмечается в качестве одного из факторов, формирующих развитие туризма в странах Азии и Тихого океана.

25. Публикация ЕКТ и ЮНВТО [«Справочник по маркетингу тем и маршрутов транснационального туризма»](#) нацелена на формирование более глубокого понимания тем и маршрутов транснационального туризма, уже предложенных путешественникам. В нем предоставляется практическое руководство по созданию и осуществлению туристских маршрутов и маркетингу тематического туризма, включая его развитие, управление и продвижение.

26. Публикация [«Извлечение максимальной выгоды из грандиозных мероприятий в целях развития туризма»](#) служит туристским властям в качестве руководства для наилучшего использования грандиозных мероприятий и относительно менее крупных событий, предоставляющего мнения сторон и описания реальных действий, совершенных принимающими турнаправлениями.

27. В марте 2018 года были опубликованы [Ежегодник по статистике туризма за 2018 год и Сборник статистических данных по туризму за 2018 год](#).

В настоящее время идет осуществление пилотной инициативы ЮНВТО.QUEST в Пунта-дель-Эсте, Уругвай.

29. Генеральная ассамблея ЮНВТО на своей 22-й сессии (сентябрь 2017 года, Чэнду, Китай) поручила Генеральному секретарю продолжать работу над проектом Конвенции ЮНВТО о защите туристов и правах и обязанностях поставщиков туристских услуг и призвала Рабочую группу закончить работу над текстом, который можно было бы представить всем государствам-

членам с видом на ведение переговоров и принятие текста на Международной конференции по вопросу о подписании договора, которая будет созвана до следующей сессии Генеральной ассамблеи. В июле прошлого года Секретариат начал опрос членов Рабочей группы в целях выяснения их мнения в отношении дальнейшей работы над проектом и улучшением текста. Количество ответов было очень малым (только десять членов Рабочей группы ответили на вопросы, только четыре из них являются государствами-членами). Следовательно, Секретариат продолжит проводить консультации с государствами-членами в отношении будущего данного проекта Конвенции.

III. Устойчивость и этика

A. Обмен знаниями и опытом и наращивание потенциала

30. Основными обсуждаемым вопросами были следующие: сокращение анонимности лиц, совершивших преступления на сексуальной почве, во время их поездок и пересечения международных границ; обмен информацией между странами и вовлечение бортпроводников, которые замечают необычные ситуации с участием детей (США) (более подробная информация доступна по следующей [ссылке](#)).

31. Участники 22-й сессии Генеральной ассамблеи ЮНВТО (сентябрь 2017 года, Чэнду, Китай) утвердили [Чэндунскую декларацию о туризме и целях в области устойчивого развития](#). Документ, в котором подчеркивается потенциал туристского сектора в экономическом, социальном и политическом отношении, включает 19 статей с рекомендациями правительствам о том, чтобы, среди прочего, «разработать комплексный и целостный подход к политике туризма, чтобы усилить позитивное и умноженное воздействие сектора на людей, планету и процветание».

32. 27 сентября 2017 года, во [Всемирный день туризма](#), внимание было сосредоточено на теме потенциала устойчивого туризма для развития. А этом году официальное празднование прошло в Дохе, Катар. Одной из целей официальных мероприятий Всемирного дня туризма была пропаганда потенциала устойчивого туризма как инструмента для развития.

33. 29-30 сентября 2017 года в Аргентине прошла [2-я Всемирная конференция ЮНВТО по винному туризму](#). Участники уделили особое внимание вопросу укрепления связей между устойчивостью и винным туризмом и отметили ценную роль винного туризма в устойчивом развитии турнаправлений.

34. 10-12 октября 2017 года ЮНВТО, Туристская ассоциация стран Азии и Тихого океана (ПАТА) и Народное правительство городского округа Гуйлинь, Китай, провели [11-й Форум ЮНВТО/ПАТА по тенденциям и перспективам туризма](#). Форум в этом году проходил под названием «Устойчивый туризм: больше, чем экология» в рамках проведения Международного года устойчивого туризма в интересах развития, 2017 года. Участники обсудили развитие туризма и устойчивый рост, перемены в поведении путешественников и практику, связанную с устойчивым развитием, наилучший опыт в политике и индустрии устойчивого туризма, устойчивый туризм в Китае и роль научных кругов в продвижении устойчивости.

35. Перед Всемирным днем туризма ЮНВТО запустила [конкурс среди путешественников](#) в целях продвижения ответственных путешествий. Инициатива стала частью кампании

[«Путешествуй.Наслаждайся.Уважай»](#) в рамках проведения Международного года устойчивого туризма в интересах развития, 2017 года. Победитель конкурса получил приз, который заключался в кругосветном путешествии в течение одного месяца с посещением мест осуществления инициатив в области устойчивого туризма. На конкурс было представлено 2400 заявок, победитель был объявлен 30 октября.

36. [Международная сеть обсерваторий устойчивого туризма ЮНВТО](#) поприветствовала учреждение двух новых обсерваторий в Индонезии по случаю проведения Международной конференции по устойчивому развитию 31 октября – 1 ноября 2017 года в Джокьякарте, Индонезия. Участники согласились на необходимости повышения осведомленности общин о выгоде сектора, улучшения использования больших данных для измерения числа туристов и их потоков и управления ими и продвижения развития туристского опыта, прямого участия общин и выгоды для них.

38. При быстром росте туристского сектора в Западной и Центральной Африке туризм стал важной опорой местной экономики во многих турнаправлениях региона. Проблемы, связанные с сохранением биоразнообразия в соответствующей качественной среде, могут в долгосрочной перспективе сказаться на уровне удовлетворенности посетителей, что в конечном итоге привело бы к снижению доходов от деятельности, связанной с туризмом. В связи с этим ЮНВТО при сотрудничестве с компанией Chimelong запустила [программу по наращиванию потенциала в Западной и Центральной Африке](#) при участии 5 стран – Габон, Бенин и Нигер уже извлекли из нее выгоду. [Последние два семинара](#) данной программы прошли 14-16 ноября в Дюбреке, Республика Гвинея, и 21-23 ноября 2017 года – в Киншасе, Демократическая Республика Конго.

способствования осуществлению Повестки дня в области устойчивого развития на период до 2030 года. 27-29 ноября 2017 года на мероприятии в Монтего-Бей, Ямайка, собралось 1500 участников и более 150 докладчиков. В течение двух дней участники заседаний рассматривали модели партнерства в областях инвестиций, инфраструктуры, международной помощи и финансирования развития, людского капитала, социальной инклюзии, изменения климата, эффективного использования ресурсов, образования и управления турнаправлениями. Лидеры туристского сектора, присутствовавшие на мероприятии, подписали Монтего-Бейскую декларацию о создании рабочих мест и инклюзивном росте: партнерство в интересах устойчивого туризма, твердо продемонстрировав свою решимость принимать дальнейшие меры по продвижению устойчивого туризма по всему миру.

Тема встреч была следующей: «Наделение турнаправлений полномочиями: через инновации – к устойчивости» – на них также обсуждалась роль туристского сектора в препятствовании изменению климата. Около 30 журналистов собрались, чтобы обсудить роль СМИ в пропаганде устойчивого туризма и охраны дикой природы как своего основного актива. На обучении рассматривалось воздействие туризма на дикую природу Африканского континента, различные журналистские грани данной темы и уместность преподнесения информации в виде живых историй. Участники имели возможность предложить решения и рекомендации по выходу из сложных ситуаций, с которыми они обычно сталкиваются при освещении данных тем.

Участники со всего мира присутствовали на [официальной церемонии закрытия Международного года устойчивого туризма в интересах развития, 2017 года](#), которая прошла 19 декабря 2017 года во Дворце Наций, Женева, Швейцария. На мероприятии был сделан обзор основных достижений Года и обсуждена дорожная карта способствования внесению туризмом вклада в осуществление Повестки дня в области устойчивого развития на период до 2030 года.

46. В ходе мероприятия, проведенного в контексте международной туристской выставки FITUR, проходившей 17-21 января 2018 года в Мадриде, Испания, семь компаний и одна ассоциация формализовали свою приверженность принципам [Глобального этического кодекса туризма ЮНВТО](#). В Кодекс входят такие принципы, как соблюдение прав человека и уважение культурного наследия, охрана окружающей среды и наиболее уязвимых общин, а также такие понятия, как инклюзивность, гендерное равенство и доступность. II. Silk Road Programme

A. Introduction

The UNWTO Silk Road Programme is a collaborative platform of 33 Silk Road Member States and numerous UNWTO Affiliate Members from the public and private tourism sphere. The programme is responsible for raising the profile of Silk Road tourism through marketing, capacity building and transnational development activities that are sustainable, responsible and internationally competitive. The philosophy and main objectives of the Programme are contained in the [Silk Road Action Plan](#), a framework document updated every two years according to Member State and partner input. An overview of the main thematic activities implemented between July 2017 and March 2018 is provided below.

B. Silk Road Programme Meetings

[7th UNWTO Silk Road Tour Operators Forum at ITB Berlin](#) (8 March 2018, Berlin, Germany)

Generously supported by ITB Berlin, UNWTO's annual forum focused on empowering Silk Road tour operators to better understand, engage and work with the international travel trade. The opportunities, challenges and necessary requirements of offering packaged tours across Central Asia, and Maritime Silk Road product development thematically framed an event that also counted upon a novel Silk Road speed-networking session where attendants could present their latest tourism products and ideas on how to improve the transnational appeal of the historic routes.

[8th UNWTO Silk Road Ministers Meeting at ITB Berlin](#) (7 March 2018, Berlin, Germany)

The Silk Road Programme's most senior annual meeting focused on the "2025 Silk Road Tourism Agenda"; that is, Member States' long-term tourism vision for the historic Silk Road routes. Attended by the newly-appointed Secretary-General, Mr. Zurab Pololikashvili, Ministers shared their main ideas and strategies as to how to fully realize the goals of establishing the Silk Road as the most important transnational tourism route of the 21st century. The research on the *Tourism Impact of the 21st century Maritime Silk Road* was also presented during the meeting that welcomed Malaysia as the 34th Silk Road Member State to join the programme.

[Silk Road Seminar at the WTM London 2017](#) (6 November 2017, London, United Kingdom)

This year's Silk Road seminar at WTM London focused on the multiple ways of marketing and travelling along the transnational Silk Road tourism route. With highly interesting input contributed by travel writers (Wanderlust Travel Media and Caravanistan) and specialized tour operators (Wild Frontier and China Tours), a travel mosaic emerged as diverse as the route itself.

C. The Silk Road Programme and transnational project development

(a) Western Silk Road Tourism Development initiative

The main management structures that are to support the [Western Silk Road Tourism Development](#) initiative, a project developed in cooperation with the Directorate General for Internal Market, Industry, Entrepreneurship and SMEs (DG Grow) of the European Commission (EC), have been successfully established. The [Western Silk Road Roadmap](#), a specialised

handbook containing the main results of the [Western Silk Road research and the two Western Silk Road workshops](#), was published in February 2018. The Roadmap, in conjunction with the [Western Silk Road Working Group](#) and the Western Silk Road Tourism Academic Network, is to ensure a common course of action within the two key pillars of the project - Western Silk Road research and Western Silk Road capacity building.

(i) Western Silk Road Working Group

Designed as a collaborative platform, the Western Silk Road Working Group is the main structure that is to ensure the long-term viability of the Western Silk Road Tourism Development initiative. Apart from guaranteeing the long-term viability of the project, the Working Group, together with the Silk Road Programme, is responsible for determining the long-term objectives for the project, and to encourage, stimulate and guide collaborative projects along the Western Silk Road. Officially launched in July 2017, the group includes representatives from the public and private tourism sector, the media sector and academia.

(ii) Developing Western Silk Road Research

Apart from the [Western Silk Road Roadmap](#), the [workshop conclusions report](#) and relevant research documents and SWOT-Analyses created by partner universities to support the Western Silk Road research effort are freely retrievable [online](#).

Also, the [Western Silk Road Tourism Academic Network](#) was created during the second half of 2017. Under the coordination of the UNWTO Silk Road Programme, nine universities have joined forces and are academically exploring the potential of the Western Silk Road as a transnational tourism concept. The Academic Network will support the Western Silk Road Working Group and partner destinations through joint research and the creation of practical tourism intelligence. Partner universities are: Russian-Armenian University (Armenia), Aristotle University of Thessaloniki (Greece); ISTHIA University of Toulouse (France); University of Bologna (Italy); University of Kerbala (Iraq); People's Friendship University (Russia); Peter the Great St. Petersburg Polytechnic University (Russia) and the University of Valencia (Spain).

(iii) European Interdisciplinary Silk Road Tourism Centre

As a clear recognition of the value of the Western Silk Road Tourism Development initiative, the Aristotle University of Thessaloniki has established the European Interdisciplinary Silk Road Tourism Centre. The center, an initiative brought forward by the university that has received widespread support from the Ministry of Tourism of Greece and the UNWTO Silk Road Programme, will support the work of the Western Silk Road Tourism Academic Network and function as a joint research hub.

(iv) Western Silk Road University Challenge

The UNWTO Silk Road Programme, in cooperation with ISTHIA – Toulouse School of Tourism, Hospitality Management and Food Studies, University of Toulouse – Jean Jaurès, has launched the [UNWTO Western Silk Road University Challenge](#), an activity that takes place in Toulouse, France, during the academic year 2017 – 2018. During this time, ISTHIA students analyse the historical involvement of the French territories within the Silk Road network, assess the impact of the Silk Road on French culture, and prepare an inventory of Western Silk Road heritage in France. The research will result in a study containing proposals for the development of potential thematic French and cross-border routes and tourism products, including strategies aimed at their branding and sustainable management.

The Western Silk Road University Challenge is a best-practice example that can be replicated throughout the Western Silk Road region. Universities or research centres interested in developing similar research are kindly advised to contact the UNWTO Silk Road Programme for further details.

(v) Western Silk Road Events and Heritage Map

As an initiative arising from the project, a Western Silk Road map has been created. In an effort to create a stronger sense of ownership and coherence among Western Silk Road partners, the map enables partners and interested stakeholders to upload events and heritage and share information linked to the Western Silk Road. The map is a continuously-updated, freely accessible and easy-to-use tool, and we highly recommend Silk Road Member States to make active use of this tool to promote their destination and activities. The Western Silk Road Map can be accessed [here](#).

(b) Maritime Silk Road

As to the Eastern section of the Silk Road, the specialised research report *Tourism Impact of the 21st century Maritime Silk Road* was presented during the [8th UNWTO Silk Road Ministers Meeting at ITB Berlin](#). The report studies the impact of China's 21st Century Maritime Silk Road project on tourism and, more generally, assesses the tourism potential of Maritime Silk Road thematic routes across Asia. Supported by Sunny International, preliminary results were already presented by UNWTO expert, Mr. Robert Travers, at the [Maritime Silk Road International Tourism Festival](#) that took place in the Chinese coastal city of Fuzhou on 19-20 November 2017. 11 countries officially attended the event, plus more than 300 tour operators and journalists from 30 different countries. UNWTO will continue its work within this sphere encouraged by renowned interest in re-activating maritime tourism and maritime transnational routes. As to specific information on the research project, please visit the [Maritime Silk Road Programme webpage](#).

D. The UNWTO Silk Road Training and Capacity Building Programme

Jointly organized by the Silk Road Programme of the World Tourism Organization (UNWTO), its UNWTO.Themis Foundation and the University of Valencia, 22 delegates from 12 Silk Road countries completed a highly innovative tourism course consisting of 1-month online courses and a 10-day onsite course in Madrid and Valencia, Spain.

The training focused on achieving a higher level of consistency among Silk Road destinations by favouring joint learning and the practical implementation of key tourism concepts and strategies. While benefitting from the teachings of international tourism experts and enjoying a highly diverse event programme that included technical field-trips and master classes in tourism related fields (gastronomy, community-based tourism, etc.), the participants worked on devising a series of transnational project proposals aimed at enhancing the tourism potential of the historic routes. Resulting from intense group-work sessions and based on common Silk Road needs and interests, an ongoing objective of the training is to materialize the proposed projects with the help of the Member States and relevant partner institutions. Participants in this new training course came from Mongolia, Kazakhstan, Uzbekistan, Tajikistan, Kyrgyzstan, Georgia, Greece, Egypt, Bulgaria, Russia, Italy and Spain. The second edition is expected to be held during the second half of 2018.

The United Nations Educational, Scientific and Cultural Organization (UNESCO) and the United Nations Industrial Development Organization (UNIDO) were official partners of this training. Travel Weekly Group, the Agència Valenciana del Turisme of the Generalitat Valenciana (the regional government of Valencia), Turismo Valencia, Turkish Airlines and additional local Valencian sponsors also supported the event. The UNWTO Silk Road Training and Capacity Building Programme was held as an official

activity of the 2017 International Year of Sustainable Tourism for Development. More information is available on the [Silk Road training webpage](#).

CEB and its subsidiary structure working groups

14. The regular sessions of the CEB (Chief Executive Board), HLCP (High-level Committee on Programmes) and HLCM (High-level Committee on Management) sessions included the participation of UNWTO, while the work UN Development Group (UNDG) was followed remotely.

15. Supported by its three pillars, HLCP, HLCM and UNDG, the CEB entrusted each pillar the task to produce one set of principles, across policy, operational and administrative aspects of the UN system's work, to guide the system's support to the implementation of the 2030 Agenda and its 17 SDGs in an integrated way. The respective sessions included agenda points, where the UN Secretary-General's vision and focus on "frontier issues", such as technology, food security and peace, as well as UN reforms are discussed.

16. In relation to HLCM meetings and sub-networks, UNWTO follows the debates on the way new technologies may render obsolete the current paradigm of Government versus other actors on international matters, the implementation of the revised compensation package for staff, the handling of After Service Health Insurance (ASHI), the growing UN concerns on the duty of care of its staff and the delivering-as-one approach by the UN system, among other topics.

17. Representation also included UNWTO at the HLCP 34th session in September 2017, which addressed emerging challenges emanating from rapidly developing "frontier" technologies, such as artificial intelligence, cyberspace, biotechnology and new weaponry. The increasing importance of new technological advancements to the achievement of the 2030 Agenda for Sustainable Development and the attainment of the SDGs was also well recognized.

Activities conducted in relation to the International Year of Sustainable Tourism for Development (IY2017)

During the reporting period, the following main activities have been carried out:

18. Two meetings of the Steering Committee, chaired by Samoa and consisting of 14 governments, 13 private sector stakeholders, NGOs and academic entities were held. The meetings aimed to maintain regular contact with the Secretariat in order to guide and advise on activities related to the International Year of Sustainable Tourism for Development, 2017 (IY2017).

19. Continuous promotion and dissemination of the Roadmap outlining five key areas in which tourism contributes to development, namely (i) sustainable economic growth, (ii) social inclusiveness, employment and poverty reduction, (iii) resource efficiency, environmental protection and climate change, (iv) cultural values, diversity and heritage and (v) mutual understanding, peace and security. The Roadmap also included the objectives, lines of action and suggested activities for all stakeholders, as well as sponsorship and partnership opportunities in five languages.

20. Global implementation of the IY2017 communication plan aimed at increasing awareness, promote the engagement of all stakeholders and communicate the five pillars of the IY2017 through: (i) media relations through opinion articles and interviews published in printed and online media; and (ii) online communication including a dedicated website available in three languages with a map of celebrations as well as co-creation spaces to share solutions, stories and knowledge on sustainable

tourism (www.tourism4development2017.org), a set of resources including social media materials as well as other audiovisual resources including the official IY2017 logo selected through a worldwide competition.

21. Dissemination of the consumer campaign 'Travel.Enjoy.Respect.' aimed at raising awareness among travellers of their ability to promote positive change. The campaign included a video, a set of tips for responsible traveller elaborated by the World Committee on Tourism Ethics in all official languages and a consumer facing microsite. The campaign included three main actions: (i) awareness raising/advertising through partnerships; (ii) a travellers' competition that attracted a total of 2,400 submissions. The winner of the competition travelled different world regions promoting sustainable travel; and (iii) an Instagram competition that culminated at the World Tourism Day on the 27 September 2017. The "Travel.Enjoy.Respect." campaign will continue during 2018.

23. Publication of the "Tourism and the Sustainable Development Goals: Journey to 2030" report, which addresses the links between tourism and the SDGs and setting an agenda for the sector towards 2030.
